Introduction to Parallel Processing

Project Presentations

12/05/2022

Professor Amanda Bienz

Poster Presentations

- Wednesday Dec. 14

  - 10am-noon

  - Stamm Commons

  - Bring your poster with you

- Prepare a 3-5 minute talk, going over important parts of poster. I will ask questions for more details on topic if I need it.

Posters

- Dimension : 24, 36, or 42 inches wide

  - Length doesn't matter for printing

  - If poster is taller than long, rotate it before printing

- To print poster:

  - Send **PDF** to <u>cssupport@cs.unm.edu</u>

  - In email, include all names of group members and class (CS 442 or CS 542)

  - To be safe, send you poster by next Monday (Dec 12)

- **Upload poster PDF to Canvas before presentation**

Final Report

- Final reports due last day of finals

- Example included on Canvas (in files)

- Don't make too long

- Make sure to include related work, lessons learned (if you changed anything from original project), what you did, results

Plagarism

- Make sure to be clear if something is not your work

- If you didn't create a figure, cite it

- If you describe and algorithm that isn't yours, cite it

- Do not present others work as your own
